

OMNIPAGE PROFESSIONAL 15

Product: OmniPage® Professional

Version: 15

Media: CD

Platform: Microsoft® Windows® 98(SE 2), 2000 (SP 4), Me, XP, Windows® Server 2003

Date Available: August 10, 2005

MSRP: \$499.99 / \$199.99 Upgrade

SKU Number: E709A-G00-15.0

Box Dimensions: 7.875 X 2 X 9.5

UPC: 780420113695

OVERVIEW

OmniPage Professional 15 is a productivity application that delivers the most accurate document conversion available, turning paper and PDF files into electronic files you can edit search and share. New OCR engines and precise formatting ensure that your electronic documents look exactly like the original – complete with text, graphics, columns and tables.

Customers use OmniPage Professional for four basic functions:

- Repurpose documents automatically rather than retyping them
- Store paper documents as searchable electronic archives
- Share documents broadly and quickly via email, Web, Document Management System or FTP
- Create and edit PDF files in batch

Customer Problem

The continued use of paper slows organizations down and frequently leads to “knowledge re-creation.” This wasted time, where workers have to re-create information from existing paper documents or search for misplaced documents, is a drain on both productivity and profits:

- Editing or updating information requires the time consuming task of retyping the paper document
 - Filling out forms can be the most time consuming component
- Filing information and retrieving it requires time spent searching through paper files, manila folders and file cabinets
- Sharing information is limited to inefficient and costly processes such as postal mail, courier or fax machines
- Critical documents are not backed up electronically for effective disaster recovery.

These same type of problems can often be found with electronic formats...how do I get the document into the format I want to work with?

The Solution

OmniPage Professional eliminates paper and digital inefficiency by improving productivity, enhancing responsiveness and reducing storage and material costs. Organizations save significant time and money by leveraging OmniPage Professional's superior OCR accuracy to instantly convert documents into the format of their choice. Retyping is eliminated, tasks are automated, information is easily accessed and productivity soars.

The Most Powerful Document Conversion Program Ever!

25 Words

OmniPage Professional 15, the latest version of the world's best selling OCR software, is the most precise way to convert paper and PDF files into your favorite PC applications.

50 Words

OmniPage Professional 15, the latest version of the world's best selling OCR software, is the most precise way to convert documents and forms into your favorite PC applications – including PDF. Superior accuracy and formatting combine with advanced workflow technology to automate all your conversion needs. OmniPage Professional is the one product you need to convert, edit, archive and share all your paper and PDF documents.

100 Words

OmniPage Professional 15, the latest version of the world's best selling OCR software, is the most precise way to convert documents and forms into your favorite PC applications. Powerful new OCR engines combine with advanced workflow technology to automate all your conversion needs. Whether you want to make paper digital, convert Quark Xpress files to Word, or create batches of PDF files, OmniPage Professional is up to the task with superior accuracy (more than 99%) and formatting. OmniPage Professional is the one product you need to convert, edit, archive and share all your paper and PDF documents.

Bullets

- **Save Time and Effort with Unmatched OCR Accuracy -**
New OCR engines deliver superior accuracy (more than 99%) that cuts proofreading to a minimum and makes you more productive. Legal, Medical and Financial dictionaries optimize accuracy on important documents.
- **Maintain Perfect Formatting -**
Converted documents look exactly like the original – complete with columns, tables, bullets and graphics. New ExactWord output makes editing smoother than ever before.
- **Harness the Power of PDF -**
OmniPage Professional 15 is a total PDF solution that allows batch creation, conversion and scanning to this popular format. PDF Create! 3 and PDF Converter 3 programs are included free.
- **Streamline Every Task with Custom Workflows -**
The new Batch Manager allows you to automate all your tasks. It will even watch your email box or network folders and complete your custom tasks unassisted.
- **Make Your Paper Forms Digital -**
Quickly and accurately scan in forms and convert them to fillable electronic forms that look just like the original – save as PDF, InfoPath and more
- **Transform Documents -**
New Document 2 Document conversion allows you to transform existing text documents into your favorite formats. Turn a Quark Xpress document to Word, a WordPerfect document to Word, etc.
- **Improve Poor Quality Documents -**
Scanner Enhancement Technology (SET) improve the quality of scanned documents, faxes and poor quality copies. Straightening, despeckling and color conversion ensure you get the results you demand

DETAILS

Target Audience

- Enterprises with large network MFP installations or distributed scanning environments
- Legal, State, Local and Federal Government, and education markets
- Grassroots KM: knowledge workers that want to capture information for future use – by themselves or others
- Individuals who want to create, edit and collaborate with PDF files
- Current OCR customers

Product Benefits

- **More time, money and energy will be saved by using OmniPage Professional 15 than any other document conversion product**
 - Less time spent “cleaning up” or proofing a scanned document means less time wasted.
 - Perfectly formatted output that flows properly makes the editing process fast and easy
- **Automation = efficiency. Custom workflows streamline all conversions by automating the entire process**
 - Re-architected workflow process intuitively maps out all your jobs and projects
 - Pre-made workflows are included for almost every scenario — from Scan-to-Searchable PDF and e-mail to SharePoint® archives
 - Workflows can be customized easily through Workflow Wizard
 - OmniPage Professional workflows can now be activated directly from the scanner — One Button Scanning
- **OmniPage Professional’s groundbreaking mix of batch PDF capabilities accelerate the archiving and collaboration process**
 - Share volumes of PDF files with PDF print workflows
 - Transform piles of paper to searchable PDF archives
 - Convert folders of PDF files into editable documents for editing and collaborating
- **Form handling and electronic document transformation make OmniPage Professional a complete conversion solution**
 - Integration of LFR technology enables scan to fillable forms — helps eliminate the inefficiency of existing paper forms
 - Electronic documents can now be transformed into their ideal format
 - WordPerfect® to Word
 - Quark XPress® to Word
 - Ensure fast perfect scans every time
 - Scanner Enhancement Technology™ (SET) eliminate re-scans and better handling of degraded originals
- **OmniPage Professional saves organizations time and money by enhancing their document sharing**
 - Replace manual processes with efficient document sharing over e-mail, the web, and document management systems
 - Organizations are more responsive; collaborate more efficiently and save the costs of telephone, print and paper.
 - New SharePoint 2003 output combines with FTP and HTML, e-mail and ODMA functionality to offer abundant file sharing options

System Requirements

- Intel® Pentium® III or higher, or equivalent processor
- Microsoft® Windows® 98 SE, 2000 with Service Pack 4 or higher, Me, XP, or Windows® Server 2003
- Microsoft® Internet Explorer 5.5 or higher
- 128 MB of memory (RAM), 256 MB recommended
- 200 MB of free hard disk space for application files and sample images, plus 40-45 MB working space during installation. Additionally: 20 – 67 MB per RealSpeak™ speech module (343 MB in total for nine languages)
- 5 MB for Microsoft® Installer (MSI) if not present
- 800 x 600 pixel color monitor with 16-bit color or greater video card
- CD-ROM drive for installation
- A compatible scanner with its own scanner driver software if you plan to scan documents.

Please see the Scanner Guide at ScanSoft's Web site:
www.ScanSoft.com for a list of supported scanners

Web access is needed for product activation and registration, Scanner Wizard database updating and obtaining live updates for the program

Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed the minimum requirements.
